Health of American Women.

From The New York Mercury, Sept. 1, 1859. Editorial. The health of American women is a subject of great importance.

Having examined certificates of the Greenough Company, I take pleasure in saying that they present evidence of genuine medicine, and are well adapted to the treatment of the various diseases of women.

Previous notices and testimonials have established the fact that THE GREENOUGH COMPANY'S MARSHALL'S UTERINE CATHOLICON is the only reliable cure for those diseases which render the life of women from the age of 15 up to old age, miserable to an extent only known to themselves.

THE GREENOUGH COMPANY'S MARSHALL'S UTERINE CATHOLICON is prepared by an educated physician, and may be daily depended upon. All other preparations of this kind are inferior, and may be dangerous to the health.
